Lining Out and Specimen Stock

FALL

1934

Business Information

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers.

PACKING. All goods are carefully packed in boxes or bales, for which we make a charge sufficient to cover cost of material used. Please state whether goods are to be shipped by express or freight and name route. After delivering to forwarders, all articles are entirely at the risk of purchaser, and if any loss or delay occurs the forwarders alone must be held responsible.

CLAIMS, if any must be made immediately upon receipt of goods, when they will be carefully examined, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question.

TERMS. We offer the usual terms; net 30 days from date of invoice, to those of known responsibility but must have satisfactory business references from others or remittance must accompany order. Those desiring stock shipped by express C. O. D. will please remit one-fourth the amount of their purchase when ordering.

NON-WARRANTY. We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, planting, growth, life of stock or any other matter on any stock we sell. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof, all stock that may prove otherwise, or refund the amount paid, but it is mutually agreed that we shall not at any time be liable for a greater amount than the original purchase price.

TELL US HOW TO SHIP. Whether by freight or express and give railroad delivery if by freight.

THESE PRICES are in effect at this date, August 10th, 1934, and are subject to any changes that may become necessary. However should any increases be made we will notify you when we acknowledge order.

Strawberry Plants

If the demand for Strawberry plants is as heavy the coming spring as it usually is there will undoubtedly be a shortage, due to the dry weather in so many plant growing sections. We see no reason why Strawberry plants should not be as much in demand the coming season as usually. In most cases the berries sold better the past season than they did the two previous seasons, this usually means increased plantings.

We will appreciate your orders for Strawberry plants and will ship to you or to your customers. We have had 28 years growing experience with Strawberries.

We will begin shipping about October 20th.

Easy to use, accurate and non-technical. This great book comes closer than any other single volume to answering every question about gardening. It includes every kind of ornamental, fruit and vegetable plant grown today with brief but complete information on their uses, cuultivation, hardiness, propagation, preferred soil, color, identification, etc. Common names are used throughout, all botanical names are defined, and the book is so conveniently arranged and compressed that it is marvelously easy to handle. 35 illustrations, 652 pages. This book has just been reduced from $10.00. **Price $5.00 postpaid.**

A NEW BOOK—AZALEAS AND CAMELLIAS

By H. H. HUME

Interest in Azaleas and Camellias is greatly increasing. Until now, little information on varieties, care, and culture of these plants has been available. Mr. Hume accurately and thoroughly describes the varieties best suited for various uses and discusses questions on culture, such as soils, fertilization, planting, propagation, and general care, indoors and out. He has taken special care to describe accurately the several groups and varieties, and his suggestions on the use and culture are very practical. If you are growing Azaleas and Camellias you will find this book of much help. **Price $1.50 postpaid.**

AS GOOD AS CAN BE GROWN

We are exerting every effort to produce the very best stock that can be grown, and in our twenty-seven year's experience we believe we have never offered bigger values than we are offering this season. We feel sure that you will be more than pleased with the stock we send you. We value your friendship and orders, and will do our utmost to keep your good will. **We believe you will find our stock as good as you can get anywhere, regardless of the price you may pay.**

MEMORANDUM

Tingle's Azaleas are very reasonably priced and they offer a large collection too.

Tingle says "Come and see our stock." We must try to make the trip and see if their stock is as good as they would lead us to believe it is.

These prices on Peonies seem too low but they say they had rather have a little than to plow them up.

MEMORANDUM

Many nurseries are looking to Tingle for their Boxwood: it has such a wonderful root system and color.

Order some books. Tingle says "If we grow Azaleas we will find Hume's book 'Azaleas and Camellias' well worth the price asked for it, $1.50 postpaid."

The Shipping Tags offered on 2nd cover page seem reasonably priced. We better order ours from Tingle this season, as they shoud know how to print them by making a specialty of nursery printing.

MEMORANDUM

Tingle's Strawberry Plants must be pretty good or they could not have kept in business these twenty-eight years. We better try them this season.

Guess I better look through this Price List again I usually can find some items not offered by most nurserymen.
